Go to [E-learning Platform](#)

Registration / Login

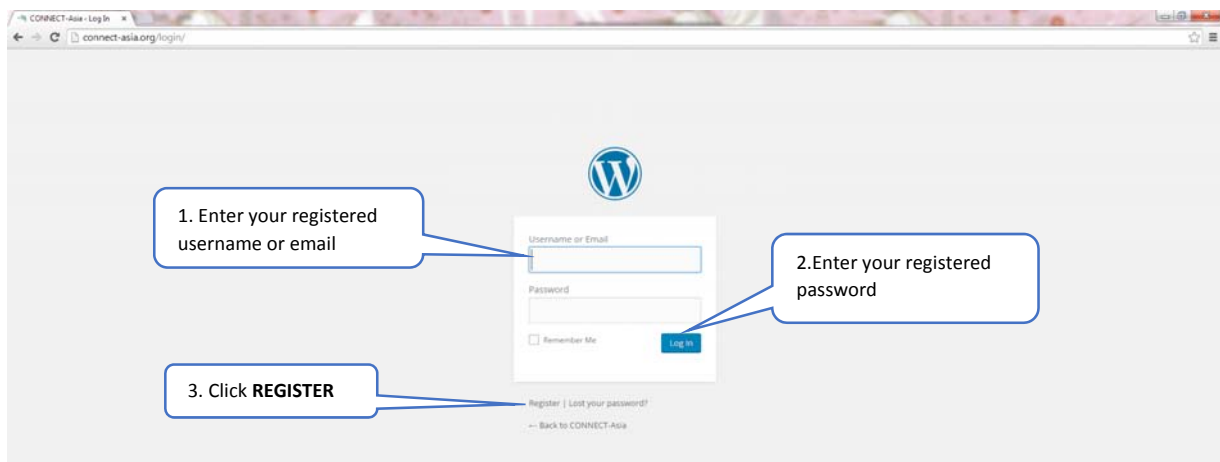

Go to **Login/Register to Introduction Package to UNESCO Global Geoparks**

<http://connect-asia.org/connect-asia-e-learning-platform/>

Register yourself (1)

<http://connect-asia.org/login/>

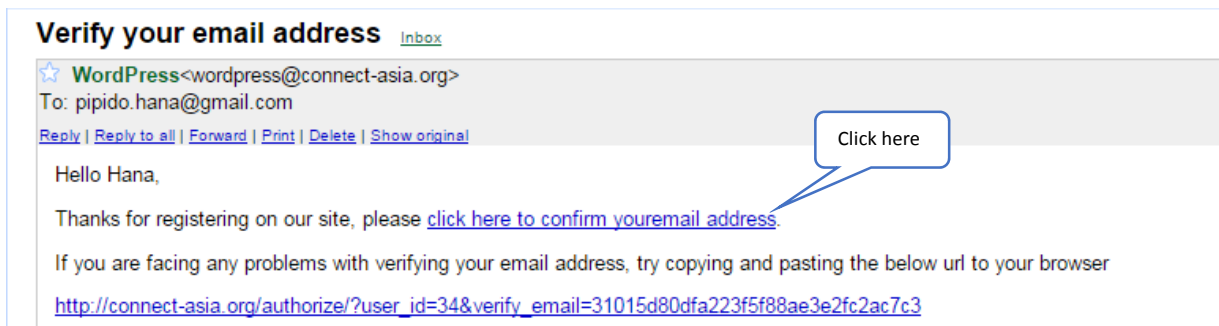

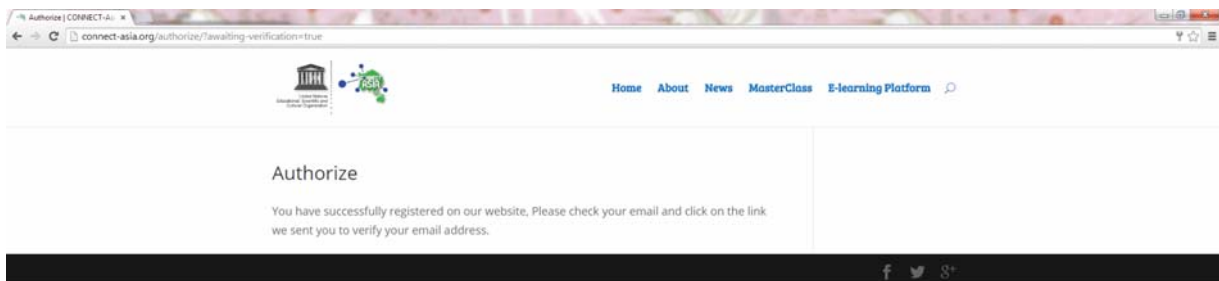

## Register yourself (2)

<http://connect-asia.org/register>

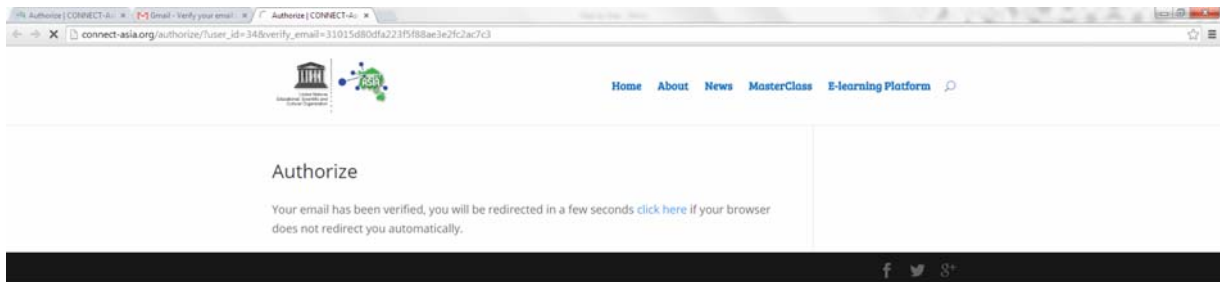

The screenshot shows the registration form on the website. The form is titled "Register For This Site" and includes the following fields: Username, Email, Password, and Confirm Password. A "Register" button is located at the bottom of the form. Below the form, there are links for "Log in | Lost your password?" and "Back to CONNECT-Asia".

1. Fill up your username
2. Fill up your email
3. Complete the password
4. Confirm the password
5. Click REGISTER

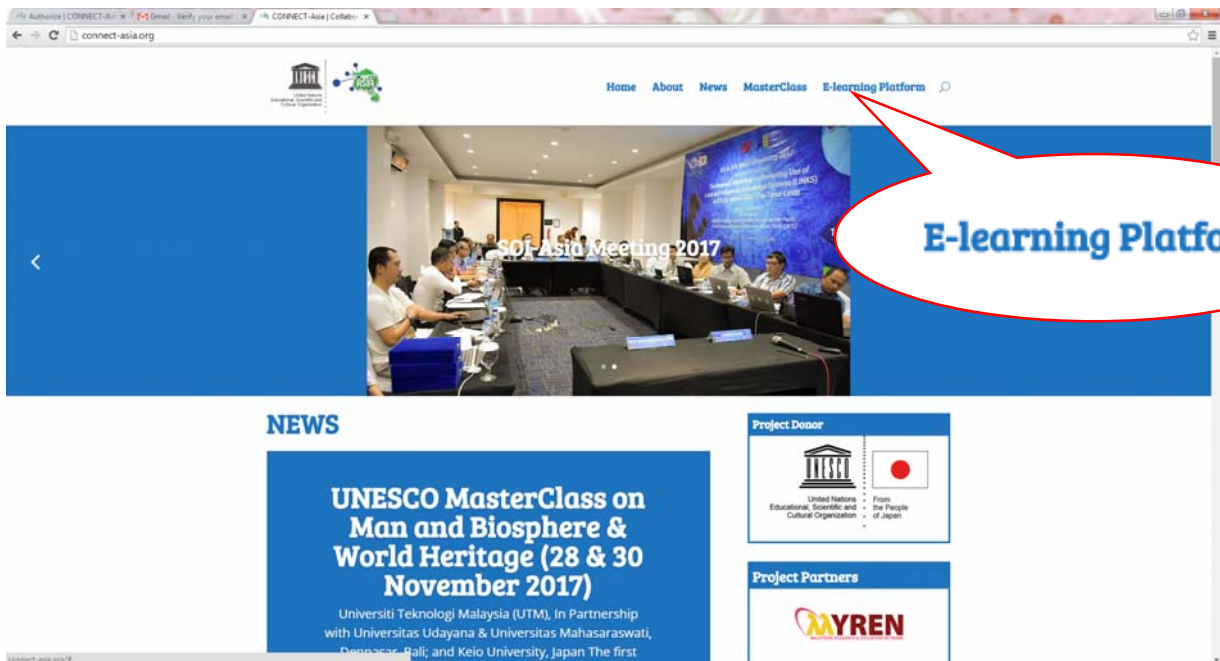

After you successfully registered, you will need to check your email and click on the link on the email sent to you by [wordpress@connect-asia.org](mailto:wordpress@connect-asia.org)

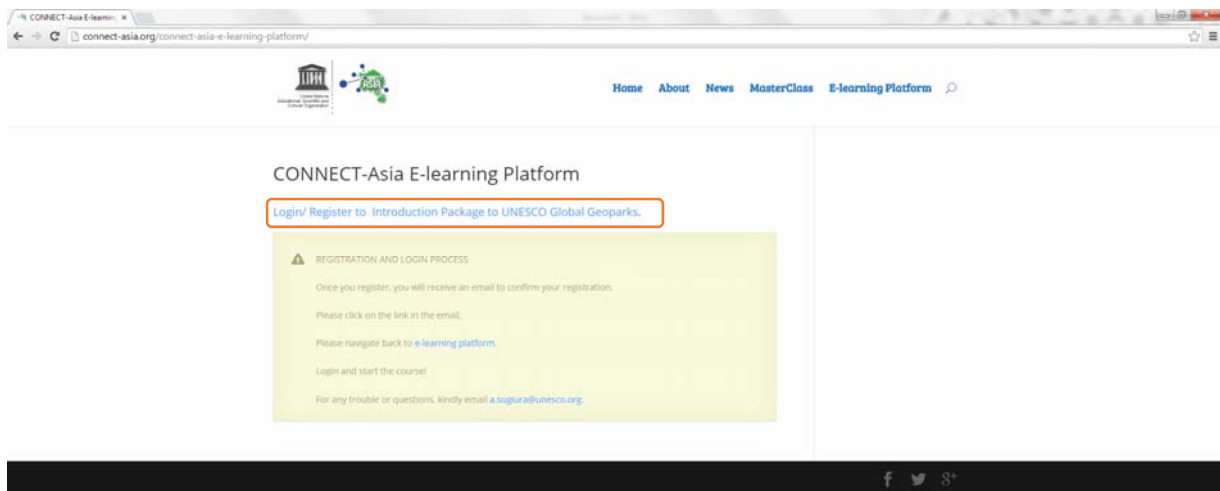

You will be shortly redirect to <http://connect-asia.org/>

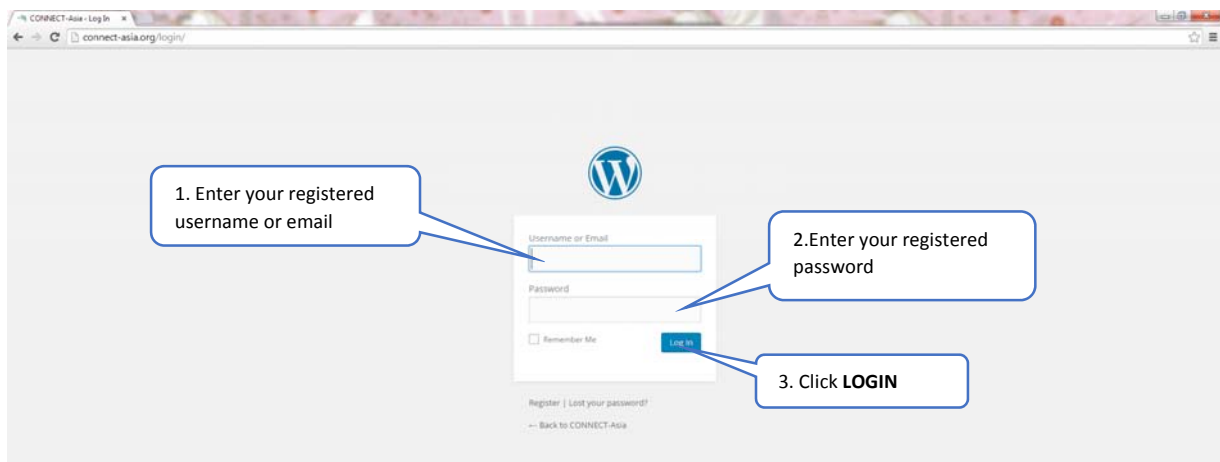

Click [E-learning Platform](#)

## Login yourself

Once you are registered, you can log in with the username/email and password you registered.

Congratulations !

You may now start the course.

Introduction Package to UNESCO Global Geoparks

Course Status: Not Started

**Welcome to this online introduction package to UNESCO Global Geoparks!**

**During this course, you will learn:**

- What is a UNESCO Global Geopark
- What are the application criteria to the nomination of UNESCO Global Geopark
- What is the application process to become a UNESCO Global Geopark

The package is a concise introduction to review definitions and procedures related to UNESCO Global Geoparks.

It is organised in two lessons followed by a quiz after each lesson. This will allow you to assess your level of understanding of what a UNESCO Global Geopark is and the journey for a territory to become one.

There will be a training course in Oki Islands UNESCO Global Geopark from 27-30 May 2018. The statistics on the performance to the quizzes will be valuable information to assess the regional understanding of UNESCO Global Geoparks. The selection process will stop on 16 March 2018.

This online introduction package is part of an effort to raise the capacity of Asia and the Pacific region to establish UNESCO Global Geoparks and is co-developed by UNESCO Regional Science Bureau for Asia and the Pacific in Jakarta, UNESCO IGPP Secretariat and the Japanese Geoparks Network and supported by the Japanese Funds in Trust.

Thank you very much again for your interest!

Let's get started!

Contact, answers and information provided in this package will not be shared with any third party outside the UNESCO network.

**Course materials have been taken from :**

- UNESCO Global Geoparks Brochure prepared by Secretariat of the UNESCO Global Geoparks
- IGPP Statutes and Operational Guidelines of the UNESCO Global Geoparks from UNESCO

**Certificate:**

The passing rate for quiz 1 & quiz 2 is 80%.

Once both quizzes are passed, a certificate can be printed.
