

Fang Chen

Professor at the Institute of Remote Sensing and Digital Earth, Chinese Academy of Sciences

Dr. Chen conducts interdisciplinary work combining, remote sensing, ecology, and other fields of study to assess spatial patterns of disaster risk. In 2011, he was elected to the CAS “Hundred Talent Program” and he is currently serving as Secretary-General of IRDR Chinese National Committee, Deputy Secretary-General of “Digital Belt and Road” Initiative (DBAR), Executive Deputy Director of the CAS-TWAS Centre of Excellence on Space Technology for Disaster Mitigation (SDIM). Dr. Chen is selected as a TWAS Young Affiliate Fellow in 2014

Address: Institute of Remote Sensing and Digital Earth, Chinese Academy of Sciences, No.9 Dengzhuang South Road, Haidian District, Beijing 100094, China
