

3. QUIZZES

Every **Lesson** has **Quizzes** part. Below is the sample of doing the quiz from Lesson 1.

The screenshot shows the website interface for Lesson 1. The title is "Lesson 1: what is a UNESCO Global Geopark?". Below the title, there are "Lesson Topics" listed: 1. Definition of a UNESCO Global Geopark, 2. The Four Essentials of a UNESCO Global Geopark, and 3. The 10 top topics within UNESCO Global Geoparks. Underneath, there is a "Quizzes" section with a table containing one entry: "1 Quiz Lesson 1" with a status icon. A blue callout box with a white background and a blue border contains the text: "For Example : Click **Quiz Lesson 1** to star the quiz". The callout box has a blue arrow pointing to the "Quiz Lesson 1" link in the table. The website header includes the logo of the International Association of Geoparks and navigation links: Home, About, News, MasterClass, E-learning Platform.

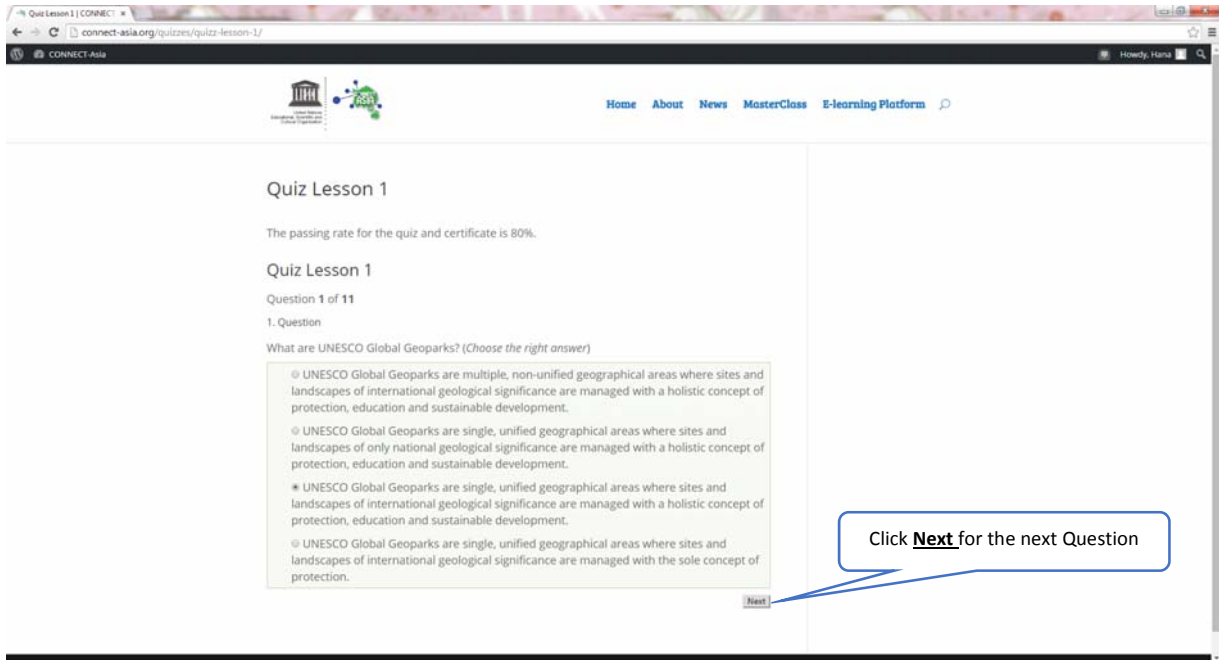

Fill in the blank

The screenshot shows the "Quiz Lesson 1" registration page. The title is "Quiz Lesson 1". Below the title, it states: "The passing rate for the quiz and certificate is 80%." The form fields are: Name, Affiliation*, Country*, and email. There is a "Start Quiz" button at the bottom of the form. The website header is the same as in the previous screenshot, including the logo and navigation links.

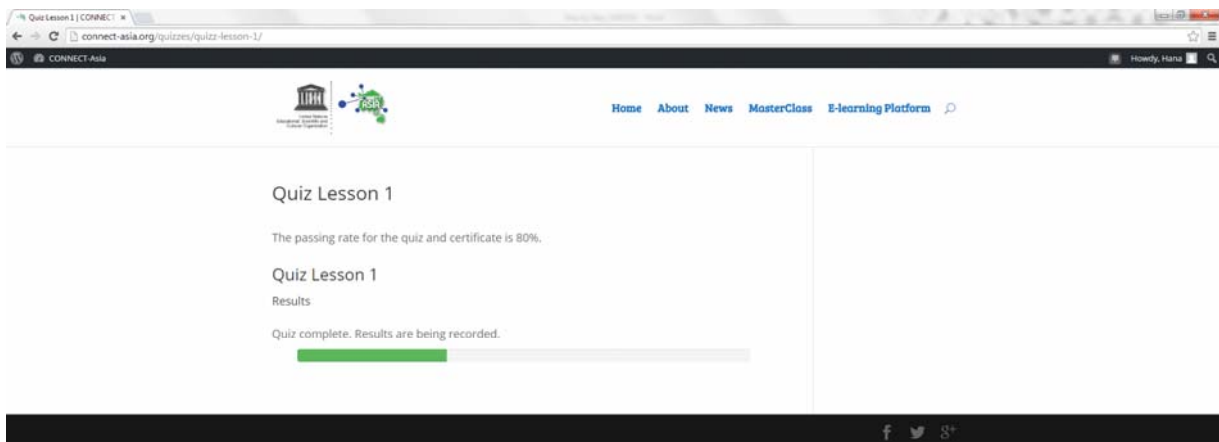

NOTE: Affiliation and Country are required information.

Let's start the Quiz !

Read the instruction carefully. Some of the questions may ask you to choose the wrong answer.

Once you have answered the 11 Questions, you have come to the end of Quiz Lesson 1

Below is the results of the Quizzes you have taken.

You may **Restart Quiz** to obtain the higher percentage and meet the passing rate and **View questions** to learn the correct answer of the quiz.

The passing rate for the quiz and certificate is 80%.

1. Question
What are UNESCO Global Geoparks? (Choose the right answer)

- UNESCO Global Geoparks are multiple, non-unified geographical areas where sites and landscapes of international geological significance are managed with a holistic concept of protection, education and sustainable development.
- UNESCO Global Geoparks are single, unified geographical areas where sites and landscapes of only national geological significance are managed with a holistic concept of protection, education and sustainable development.
- UNESCO Global Geoparks are single, unified geographical areas where sites and landscapes of international geological significance are managed with a holistic concept of protection, education and sustainable development.
- UNESCO Global Geoparks are single, unified geographical areas where sites and landscapes of international geological significance are managed with the sole concept of protection.

Correct
UNESCO Global Geoparks are single, unified geographical areas where sites and landscapes of **international geological significance** are managed with a holistic concept of **protection, education and sustainable development**.

2. Question

To continue to Lesson 2 (or next Lesson), you have to passed the passing rate.

Quiz Lesson 1
Results
